DAVID HICKS  
*by Ashley Hicks*

Known for his bold use of colour, eclecticism, and geometric designs, David Hicks is acknowledged as one of the most exciting and innovative British interior designers of the late twentieth century.

These striking new collections of David Hicks fabrics and wallpapers, taken from original archive patterns, have been produced by GP & J Baker in collaboration with his son, Ashley Hicks. They combine his father's strong graphic style and powerful colour sense with a gentler and more usable contemporary appeal.

Perfect for residential and contract use, the designs which have a broad international appeal, range from characteristic, punchy geometrics and stylised florals printed on linen, to luxurious cut velvets and heavy, symmetrical embroideries.
