## LANGDALE COLLECTION

Distinctive and diverse, the 'Langdale' collection includes gorgeous embroideries that pay homage to the intricate stitch work used within this traditional art. A superb range of upholstery velvets together with a range of opulent, plain velvets in a range of softly shimmering jewel-like colours add a luxurious dimension. In contrast two relaxed and extremely versatile linens harmonise effortlessly with all the designs in the Langdale collection.

Completing the collection, 'Langdale' wallpapers feature optical plains and patterns, elegant florals and Chinoiserie arborescent designs as well as a beautiful depiction of majestic animals from the African Savannah.
