ARTISAN II

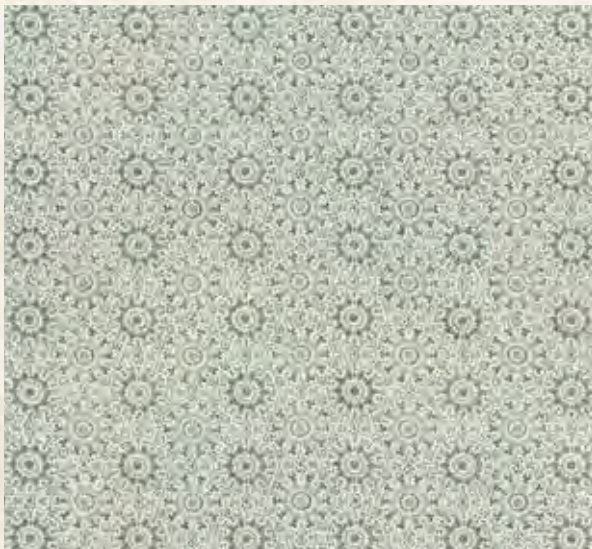

ARTISAN II

Artisan II celebrates the centuries old art form of hand block printing. This rare craft, using incised wooden blocks carved by a master craftsman, is a slow and careful process resulting in a highly creative and unique effect impossible to achieve by any other method.

The collection also celebrates the ancient technique of decorative embroidery using traditional stitchwork to create superb contemporary designs including a magnificent example of hand stitched crewel work.

The colour palette of these designs, painstakingly printed or embroidered on a mix of natural grounds, is fashionably understated ranging from deep indigo, charcoal and spice to soft aqua and cool neutrals.

This is an elegant, classic collection bringing a fresh modern look to these time-honoured skills.
